ADDRESS: Shiv Vihar Colony, Ganeshpur, Roorkee, Uttarakhand 247667

SUMMARY

Computer Science undergraduate at COER University with hands-on experience in web development, including real-time and IoT-integrated applications. Comfortable solving problems independently, picking up new tools quickly, and working well in a team. Looking for opportunities to keep building and growing professionally.

EXPERIENCE

FRONT-END Intern | Indian Institute of Technology Roorkee | (June'25 – Aug'25)

- Built the front-end UI for Campus Fauna's website, IIT Roorkee's wildlife committee, using HTML, CSS, and JavaScript.
- Made the layout responsive so it works smoothly on both desktop and mobile.
- Worked closely with the committee **Chairman** and a small team to shape the design around what the committee actually needed; the site is now live and in regular use.

EDUCATION

Bachelor of Technology in Computer Science and Engineering, COER University, Roorkee, India | Aug '23 — July '27
Intermediate (Class XII): Sheffield International School | 2023

PROJECTS

Web-Based Health Monitoring System | HTML, CSS, JavaScript, Chart.js, IoT

- Built a web app that tracks real-time health data — heart rate, temperature, and oxygen levels — collected from IoT sensors.
- Created a dashboard with Chart.js to visualize the live sensor data in a way that's easy to read at a glance.

Weather Forecasting Web Application | HTML, CSS, JavaScript, Weather API

- Built a weather forecasting web app that pulls live conditions and forecasts through a weather API.
- Added location-based search so users can quickly check current conditions and plan their day around the forecast.

SKILLS

Languages & Web: HTML, CSS, JavaScript JQuery

Frameworks & Libraries: Node.js, Chart.js, Tailwind CSS, Bootstrap, React.js

Specialisations: Web Development

Dev & Tools: VS Code, REST APIs, GitHub
